Dear Frontier STEM Community,

Let me begin by saying how much we miss all of our 341 students. We are concerned for our students' health and well-being, as well as their families. While going through difficult times with the current COVID-19 pandemic as a school community, the health and safety of the students and parents in our community is of utmost concern.

As a district, we continue to closely monitor the situation and taking any necessary precautions. At the same time, we are also doing our best to minimize the effects of the situation on our students' education. Staying away from each other and practicing social distancing does not make it easy to accomplish. But we live in a digital age and with today's technology makes it possible for learning to continue despite this obstacle.

Our staff has been working hard to make a transition from regular education to digital learning within a very short period. While we are trying to transform into online education it is expected to encounter many difficulties. I believe, those difficulties can be overcome easily as we work together as a learning community.

FSHS virtual learning will start on March 23, 2020 and continue until everything gets back to normal. The students will use Google Classroom, Google Hangouts and Google Meet to communicate with their teachers. Please refer to Campus Virtual Learning Plan on our website for more details.

Because this is a fluid and evolving situation, we will be in communication with our school community in the upcoming weeks. Regular communication from Frontier Schools will continue through the District and School websites. We are also in constant communication with the city, health department, the Centers for Disease Control, the Department of Elementary and Secondary Education and our neighboring districts to receive the most recent updates and share with you.

We are in this together and will get through these difficult times by supporting each other. If at any time you need assistance or resources from administration or support staff at FSHS- please do not hesitate to reach out.

Serkan Kilic,
Principal,
